

# Moving On... To A New School!

Transition Workbook

actually,  
I can!

don't stop  
making mistakes,  
you'll learn from  
them.

you don't need anyone  
to believe in you in  
order to achieve your  
goals, you just need  
to believe in yourself!

things always  
work out the way  
they're supposed to!

Sometimes  
life will throw daggers  
at you... just throw  
them back!

IF YOU WILL BELIEVE,  
YOU WILL ACHIEVE!

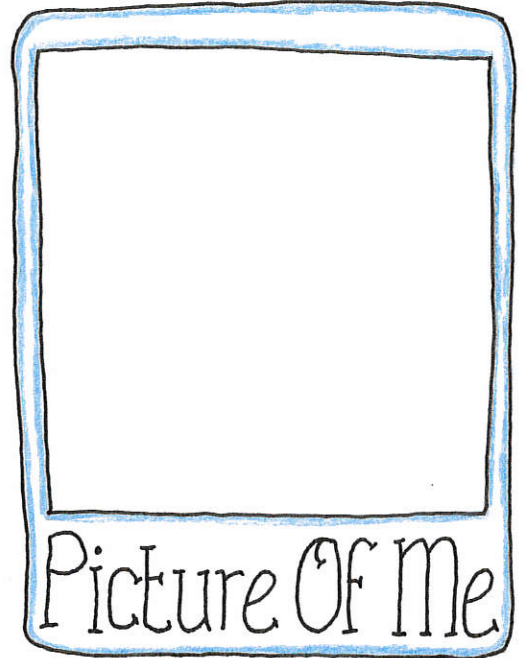

there is no  
path to  
SUCCESS  
without failure

ALWAYS  
THINK POSITIVE,  
LIVE  
POSITIVE!

Never give up  
until you  
SUCCEED!

# It is okay to be a bit worried about starting your new school, but there are lots of things you can do to make starting secondary school less scary and more exciting!

In the red jigsaw pieces there are some questions you might have about starting your new school. In the green jigsaw pieces there are some pieces of advice and answers to these questions. Match the questions in the red jigsaw pieces to the relevant advice in the green jigsaw pieces. There are some blank jigsaw pieces to write your own questions and pieces of advice too!

What if I find it hard to make friends?

How will I find my way around?

How will I remember all the homework I have to do?

What if I forget to bring my books to lessons?

How will I get to lessons on time?

What if the lessons are too hard?

Ask for a map!

Everyone is in the same situation as you and wants to make friends too

Look into what school clubs there are to meet people with similar interests to you

You will get given a homework diary to write down all your homework in so you don't forget

Remember that there are lots of staff at school you can talk to if you are worried about anything

Remember that you are at school to learn and it is okay to make mistakes sometimes

The school will seem big at first compared to your primary school, but you will quickly learn your way around.

Stick with other children in your class when walking to lessons so you don't get lost

I can always ask a teacher for help
